DETAILED ACTION

Allowable Subject Matter

1. Claims 1-9 and 11-15 are allowed.
2. The following is an examiner's statement of reasons for allowance: The closest prior art is applicant's prior invention. A terminal disclaimer has been filed. Conventional methods teach the invention essentially as claimed but use a single material for all solder bumps. See Rinne (US 2002/0153092 A1). There is no indication of multiple solders with different melting temperatures. Burnette (USPN 5956606) teaches different solder materials but the solder bumps, which are not offset, are aligned in a previous step prior to melting at different temperatures.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
